A masterpiece of high Victorian engineering

The massive iron framework, a masterpiece of high Victorian Engineering, lifts canal boats 50ft between the **Weaver Navigation** and the **Trent & Mersey Canal** – and the **glass covered trip boat** gives the chance to see this from the inside on the 30 minute voyage.

Stay on board the boat for a **unique river cruise** looking at the industrial heritage of Northwich, a town which has made its living from salt for 2,000 years.
