Explorers

1 Stop and Look

Standing at these view points is a great way to exercise our eyes.

- Stop for a moment and look far into the distance.
- What is the furthest thing you can spot?
- Looking at faraway views calms your brain and helps you to spark new ideas.

2 Canal's Story

Find a peaceful spot by the canal. Sit down and take notice of the nature that surrounds you whilst you listen to our story.

Add a gentle buzz if you like.

3 Waggle Dance

Bees dance in a figure of eight and buzz to tell other bees the direction and distance to food, this is the waggle dance. The longer they waggle, the further away the food is.

Do the waggle dance:

1. Spot a flower or leaf you like.
2. Face towards the flower (bee food)
3. Waggle your hips and move in a figure of eight.
4. Buzz as you waggle!

Can someone else follow your waggle dance to find your "flower?" Then, it's their turn to be the **Waggle Dancer**.

Dancing is a great way to move all parts of your body, it also releases hormones that make us feel happy!

4 Jump Line

Use pebbles or small items to create a line—stay well away from the canal edge.

Try these jumps:

- **Two-foot taps:** Jump both feet over the line. How many times can you go back and forth?
- **One-foot hop:** Hop over using one foot, then switch feet. Can you keep your balance?
- **Side-to-side:** With the line between your feet, jump side to side without touching it.
- **Zig-zag:** Jump forward and diagonally left and right, like a zig-zag path.
- **Long jump:** Find a small gap or crack and leap over it in one big jump—only if it's safe to do so.

5 Step Challenge

Find the bridge highlighted on your map and try these challenges (with an adult nearby):

- **Slow and steady:** Go up and over the steps, step up one at a time, feel each foot.
- **One foot first:** Start with the same foot each time, then switch!

How does that feel?

Step-climbing makes your heart strong, your legs powerful and your balance and coordination awesome.

6 Dragonfly Breathing

Imagine you're an incredible dragonfly

Flapping wings (to release energy)

- **Stand tall**, feet apart and comfy.
- **Stretch your arms out wide** like dragonfly wings.
- **Take a big breath** in through your nose.
- **Flap your wings!** Breathe out through your mouth as you flap your arms up and down.
- **Do it a few times** to feel that energy fly away!

Gliding (to find calm)

- Keep your arms out wide, but **still and soft**, like you're gliding.
- **Breathe in slowly** through your nose.
- **Breathe out gently** through your mouth.
- **Repeat a few times**, imagining a dragonfly floating peacefully.

Breathing mindfully is one of the fastest ways to access calm.

Jumping raises our heartrate & makes us feel more energized and awake.

7 Super Stretch

Stretching helps release tension from our muscles, which helps our minds feel calm and relaxed.

1. **Tall tree stretch**

- Stand tall. Reach up high like you're touching the clouds or tallest tree.
- Breathe in and hold for 3... feel the stretch.

2. **Windy tree sway**

- Keep arms up and gently lean side to side, like a tree in the breeze.
- Stretch each side slowly.

3. **Heron stretch**

- Bend forward, arms dangling toward your toes.
- Let your head relax and feel the back of your legs stretch.

4. **Canal bird wings**

- Arms out wide—big bird wings.
- Make slow, wide circles—forward, then back.

How good does that feel now?

8 Code Breaker

Alright, super-sleuths, it's time to team up and solve these puzzles! Unscramble the letters to reveal the hidden words.
