SAFETY HEALTH AND ENVIRONMENTAL INFORMATION

In addition to the hazards/risks normally associated with the types of work detailed on this drawing, note the significant residual hazards shown on this drawing.

For information relating to use, cleaning and maintenance see the health and safety file.

It is assumed that all works will be carried out by a competent contractor working, where appropriate, to an approved method statement.

- NOTES:**
- Do not scale from this drawing. Use figured dimensions only.
 - All dimensions are indicative and are to be confirmed on site.
 - All dimensions are in millimetres unless noted otherwise. All levels in metres relative to ordnance datum.
 - This drawing should be printed in colour.
 - There is some ambiguity around the exact location of services as service plan information does not align directly with visible features picked up in the topographic survey. The Contractor should confirm the presence and details of all existing structures, pipelines and other services prior to commencement of the works.
 - Topographic survey information taken from Survey Operations drawing 22C173. For areas where there is a lack of topographic points from the survey, topographic data has been compiled through freely available LIDAR from UK Government Portal. All these levels must be confirmed by the Contractor prior to commencement of the works.
 - To be read in conjunction with the following documents:
 - Drawings:
 - 10048826-ARC-EWE-R1-DR-CE-00102 to 00110 (except 00103, 00108 and 00109)
 - 10048826-ARC-EWE-R1-TH-CE-00101 DRA
 - Canal & River Trust standard detail STD-CRT-ZZ-02-DR-C-06

Note: there are currently services crossing this site. These cross through the centre of the site and prevent construction of the works. These services will be diverted by the Trust prior to commencement of works. This drawing shows the services pre-diversion and post-diversion (see legend).

The diverted services will be within the site footprint but the exact location is not known. Indicative location shown on this drawing based on Hafren Dyfrdwy drawing 1110816-Coppice Lane Powys -H7W01102-CY-0101- A (C), Rev A 21.05.24. Contractor to confirm positions of diverted services prior to commencement of works.

- LEGEND**
- Red line boundary
 - Trust land ownership
 - 11kV overhead cables
 - BT
 - Pre-diversion water mains
 - Post-diversion water mains (shown indicatively)
