## Dock Notice

Dock Notice Number: 10/2025 Issue Date: 24<sup>th</sup> September 2025

### Bellmouth Passage Bridges Remedial Works (Update 4)

All parties are advised that the ongoing remedial works to the two major **Bellmouth Passage Bridges** have reached final stages, requiring scaffold encapsulation of the North Bridge.

This scaffold will **reduce the overhead clearance** (or air draught) of the North Bridge to **4.20m**, reduced from its normal 5.36m

Any navigation through the passage should therefore consider this reduction in overhead clearance and the potential for overhead hazards.

This is expected to be in place **until 26<sup>th</sup> January 2026**.

This only affects vessels transiting between South Dock and the North part of the Dock system as shown.

Affected parties looking to plan transits should contact the harbour operations team for further information.

A further Dock Notice will be issued on completion of works. Dock notice 04/2025 is hereby cancelled.
