

West India Docks Dock Notice

Dock Notice Number: 05/2026 Issue Date: 5th May 2026

Bellmouth Passage Bridges Remedial Works (Update 6)

All parties are advised of the ongoing remedial works to the two major Bellmouth Passage Bridges. The **overhead clearance** (or available air draught) of the North Bridge has **returned** to its normal **5.36m**, like the South Bridge.

Any vessels navigating the passage requiring these two higher bridges to lift, both at 5.36m, will need to provide the harbour office **two weeks' notice to ensure availability**. This is due to ongoing remedial works to the lifting mechanisms that are expected to conclude this summer.

This only affects vessels transiting between South Dock and the North part of the Dock system as shown.

Affected parties looking to plan transits should contact the harbour operations team for further information.

A further Dock Notice will be issued on completion of all works. Dock notice 01/2026 is hereby cancelled.
