Dock Notice

Dock Notice Number: 02/2026 Issue Date: 28th January 2026

Montgomery Bridge (Bellmouth Passage) Remedial Works

All parties are advised that remedial works to Montgomery Bridge (circled below) are due to commence on 4th February until 23rd February 2026.

During this time the bridge will not lift and the scaffold at each end of the bridge will **reduce the maximum navigable width from 11m and overhead clearance (or air draught) from 3m.**

Due to the non-uniform profile of this bridge, any vessel planning passage should contact the harbour operations team for further information. This should not affect the regular passage of Go Boats or Skuna hot tubs and BBQ boats, however, any vessel navigating in this area is requested to consider the reduction in navigable width and overhead clearance and the potential for overhead hazards.

A further Dock Notice will be issued on completion of works.
