

Discover Stoke Bruerne

Stoke Bruerne is the best place on the canal system to explore canal life in the past. You're sure to find out that it's much more fun on the waterways today!

A little bit of history

When work began on the Grand Union Canal at Stoke Bruerne in 1793, the main village street was diverted, cutting the village in half. But, after much grumbling no doubt, the villagers found they could make money by supplying food, drink and trades to the navvies who built the canal, and then to the boaters.

Best of all it's FREE!*

Five things to do at Stoke Bruerne

- Pop** into the Canal Museum and find out all about narrowboats and the people who worked on them.
- Take** a boat trip into the Blisworth Tunnel. In the early days of canals, boats had to be 'legged' through while the horse was led over the top.
- Stroll** down the towpath and watch the boats working the locks.
- Take a walk** in the woodland walk and look out for the sculptures of wildlife.
- Make** a simple net at home and go pond dipping from the special platforms.
