

Create and Do: Signing off on Water Safety

Use the templates overleaf to design your own safety sign. Remember the shape and the colours you use will have a meaning too.

Remember:

- Hazard signs are triangular. They feature a yellow background, a thick black edge and a black pictogram to clearly communicate the danger
- Mandatory (things we must do) signs are circular with a blue background and a white pictogram displaying the instruction
- Prohibitory (things we can't do) signs are circular and red with a diagonal line through, and a black and white picture depicting the thing we cannot do
- Safety information and advice is given on rectangular green signs with white images

Danger
Deep water

Keep out

NO SWIMMING
