

Dear Customer,

Below are some notes to remember when booking or travelling the Millenium Ribble Link.

- It has been brought to our attention when completing our pre-booking checks, that **Boat Safety Certificates** and **Insurance Cover** have often expired during the year of the Licence. It is a requirement for this passage that current documents are held and checks will be made by Canal & River Trust who if necessary, will contact you directly for up to date copies.
- On the passage schedule, please be advised '**Up**' passages are from Tarleton to Savick and '**Down**' passages are from Savick to Tarleton.
- **Please read the Terms & Conditions thoroughly as they may have been amended and not there is now an administration charge should you miss your passage and not follow the correct cancellation procedure.**
- Please note that when travelling from Tarleton the last place to dispose of rubbish before going onto the Link is at Sparks Bridge. It is suggested that fresh water tanks are filled up at Sparks Bridge as there are no facilities at Tarleton. On arrival at Tarleton please moor up on the visitor moorings immediately after Town End Swing Bridge.
- Don't forget your life jackets, anchor, mobile phone and windlass or you will not be able to travel through the Link.
- **Please ensure your mobile phone is left switched on for the duration of your whole passage day as Canal & River Trust Staff or their agents may need to contact you before and during your passage.**
- You must arrive by the time specified in your booking (4 – 4.5 hours before for a down passage and 2 hours before for an up passage) for all preliminary checks and preparations to be made. Should you not arrive by the specified time you may not be able to travel. Please note that due to high demand Canal & River Trust cannot guarantee passage on the next tide.

We thank you for your co-operation and look forward to receiving your application.
