High Speed Two Phase 2b: Crewe to Manchester, West Midlands to Leeds Consultation on the Eastern Leg Rolling Stock Depot

Rolling Stock Depot Consultation

In November 2016 the Government confirmed the majority of the Phase 2b route and launched a consultation on seven substantial changes to the Phase 2b route.

One of these proposed changes (the M18/Eastern route refinement) involved a realignment of the route from Derbyshire to West Yorkshire to reflect a change in the proposals for serving the region. This proposed route change meant that the main high speed line would pass to the east of the proposed Eastern Leg Rolling Stock Depot (RSD) at New Crofton, rather than the west as had been proposed in 2013. This change altered the access to the rolling stock depot and, as a result, appeared likely to have a greater impact on the local community.

As a result, in November 2016 the Secretary of State requested a study to consider alternative sites for a RSD on the eastern leg of the Phase 2b route.

HS2 Ltd has completed the study requested by the Secretary of State and have proposed an alternative site for the Eastern Leg RSD, east of Leeds in the Aire Valley adjacent to the M1. The Government is minded to accept this advice, but is consulting on the relocation before making a decision. We are therefore inviting comments on the proposal to move the Eastern Leg RSD to a site east of Leeds in the Aire Valley adjacent to the M1. Please ensure you read the consultation document before providing your response.
